A TESTIMONIAL FROM ONE OF OUR STUDENTS

“ I always wanted to study International Human Rights Law and the opportunity came when I visited the Domuni University website. I immediately knew that Domuni University was the right place for me to pursue my academic goals and for sure, I was not disappointed. I chose Domuni University for a very simple reason - that the cost of learning was affordable. The course I chose was very interesting and covered a wide range of subjects from philosophy of law to International Humanitarian Law. I am a strong believer in human rights and very much against human rights violations and the course just provided the knowledge I needed. What I liked most about Domuni University was the fact that I could easily fit learning around my work and home life. Secondly, I could decide exactly when and where to study. Staff and professors were so friendly and helpful and made sure that as students, we had the best eLearning experience with opportunities created for us to interact and learn from each other via zoom. I really enjoyed zoom discussions with other students a lot. My time at Domuni provided me with important academic and research skills which I intend to use in future academics and research. ”
